Stop the Yucca Mountain radwaste dump *again*! NRC suddenly announced publication of a SEIS, absurdly concluding that radioactive releases from the proposed dump would be minimal, and harmless. If nuclear fuel is buried at Yucca, it would leak into the air and groundwater, creating a "nuclear sacrifice zone" -6-

downwind and downstream. NRC has also announced a rushed public comment period. Push back is needed! Public comments due by Oct 20, 2015. Instructions, talking points and more details at <beyondnuclear.org/yucca-mountain>.

Galeano Vive!- Painting a Zapatista Teacher. Fast-paced, visually stunning video (available in Spanish and English) teaches about assassinated Mayan rebel teacher Galeano while documenting the painting of an astounding mural deep in Zapatista territory. Seeking venues to host a screening.
